

Announcement from Charles Kendall BioLogistics

In early 2009 **Charles Kendall Exhibition Services** combined with **Show Carriage Limited** to become one of the leading exhibition and event service providers within the UK, offering all of its clients a complete and dedicated door-to-door exhibition service, in the UK and also overseas.

Over the past year the combined **Show Carriage** exhibition team has helped its customers to successfully exhibit at over 200 exhibitions, in many locations in countries as diverse as the United Arab Emirates, India, Japan and USA, as well as throughout Europe.

During this short period of time Show Carriage has seen growth in the **Life Science sector**, to such a degree that the section, and the support that the team has gained from its Customers, Organizers, and ATO's has necessitated a separate unit to be created, based at Feltham, the UK Headquarters of **Charles Kendall Freight**, and will operate its own dedicated **Life Science event team** from this important hub, in future to be known as:-

The team, led by Mike Barrett, will operate a dedicated **Life Science event service**, offering specific event and exhibition services, targeted at the **Life Science sector**, including Biotech and Clinical and Pharma events, as well as conferences, and multi-media shows
